APPENDIX TO THE JOURNAL

OF THE

COMMON COUNCIL.

APPENDIX

APPENDIX No. 1.

Philadelphia, August 1, 1904.

To the Presidents and Members of
Select and Common Councils of Philadelphia.

GENTLEMEN:—In obedience to the Act of Assembly approved June 11, 1879, I have the honor to submit herewith the annual detailed statement of the Appropriations and Receipts to August 1, the estimated receipts, expenses, assets and liabilities of the City for the current year from August 1 to December 31, and for the next fiscal year commencing January 1, 1905.

To these have been added the calculations at five rates, for comparison, the first \$1.50 per \$100 being the rate fixed by ordinance approved June 16, 1904, the latter \$2.24 per \$100 being the rate that would be required to give the various Departments the increased amounts asked for.

The total expenses, estimated by the heads of Departments, for the year 1905, amount to \$36,279,047.02, which includes the lawful obligations due by the City as well as amounts set aside to meet payments by writs of mandamus; the latter aggregating a sum for that year which it is expected will be greater than that ever reached in the history of the City. On January 1 last, it was estimated that the outgo from this source for the year 1904 would reach at least \$1,500,000, and this amount was therefore set aside, but on August 1 it was found that the annual estimate had not only been reached in seven months but had actually been exceeded by \$310,885.36.

Under the circumstances this Department is compelled to add the sum of \$600,000 for the five remaining months of the current year, making a total of \$2,410,855.36, and increase the amount for the coming year to \$2,500,000.

	\$1,810,885 36

It will be observed in the foregoing statement that the first item, which exhausts nearly two-thirds of the entire charges to August 1, is for the opening and widening of streets.

In reference to this matter I would respectfully advise that the disbursements of money in this direction is one meriting the urgent consideration of your Honorable Bodies. The opening and widening of streets, changes of grade, condemnation of land for Fairmount and other smaller Parks, freeing of turnpikes from toll, etc., is work of the most permanent character, and the annual disbursements necessary for such purposes should be regulated by the legislative body controlling appropriations, in order that the sum to be thus expended may be accurately ascertained and provided for in the amount reported for appropriation.

The depletion of the general fund by the increased expenditure indicated above, with the prospect of its continuance in the future, judging by the number of bonds filed in the City Solicitor's office as well as legislation that will be necessary to continue the development and im-

provement of suburban and farm land—after the detailed statement of this Department is carefully prepared and forwarded to your Honorable Bodies of the City's financial resources, constrains me to urge that provision should be made to meet this permanent liability either by the insertion of an amount in future loan bills or the adoption of an adequate tax rate.

Funded Debt.

The gross funded debt on January 1 last was \$56,337,-245.22. To this has been added the loan of May 18, 1904, \$16,000,000, a portion of Series "S" of the Subway Loan of March 15, 1904, \$5,000 to meet claims for damages to properties on the line of that improvement, and \$9,200 of unclaimed matured loans returned by the Farmers' and Mechanics' National Bank. From these should be deducted fractions of unclaimed loans redeemed amounting to \$4,325, making the gross funded debt on August 1, 1904, \$72,347,120.22. By deducting from the latter figures the City securities in the hands of the Sinking Fund, \$5,338,075, there remains a net funded debt of \$67,009,-045.22.

Of the authorized loans there is still awaiting negotiation \$1,913,000, apportioned as follows:

Pennsylvania Avenue Subway..	\$ 513,000.	Loan of April 4, 1894
Public Library	1,000,000.	Loan of June 17, 1898
Art Gallery	200,000.	Loan of June 17, 1898
Grade Crossings	200,000.	Loan of June 17, 1898

Fire Insurance Fund.

There has been appended to the statement of the funded debt from the Sinking Fund Commission, found on page 5, the amount held by the Commissioners to the credit of the New Fire Insurance Fund as per ordinance approved by his Honor the Mayor, March 29, 1904.

This fund collected through the cancellation of the many policies covering the property of the City amounted on August 1 to \$100,813.86. Further cancellations will probably swell these figures some \$17,000 more. The interest upon this sum with the annual appropriation asked

for of \$25,000, will it is hoped soon enable the Commissioners to announce the fact that the permanent fund named in the ordinance, to wit, \$250,000, has been reached.

Amount subject to appropriation to departments...	\$20,750,276 01

Yield at \$1.50 Tax Rate.

By reference to the foregoing statement it will be seen that, notwithstanding the addition of \$23,825,808 to the estimated assessed valuation of real estate reported by the Board of Revision of Taxes for taxation in 1905, the amount to appropriate to Departments in 1905 falls below that reported for appropriation in 1904 to the extent of \$1,429,820.37.

This is largely owing to the fact that the interest account and appropriation to the Sinking Fund has been greatly increased on account of the additions to the funded debt together with the increased estimated amount to meet the mandamus payments for the coming year. The total increase in the lawful obligations over those shown for the current year amounts to \$1,587,825.98.

In view of the extraordinary receipt of certain moneys since January 1st, notably the payment of the bond given by the Philadelphia and Reading R. R. Co. at the time of the elevation of the street at Ninth and Columbia avenue, amounting to \$560,648.41, this Department is enabled to show an estimated surplus of \$220,019.61.

Very Respectfully,

Your obedient servant,

JNO. M. WALTON,

City Controller.

APPENDIX No. 4.

OFFICE OF THE MAYOR.

Philadelphia, August 11, 1904.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—I return herewith without my approval an ordinance entitled "An Ordinance to authorize the opening of the Boulevard, from Second to Rhawn street," for the following reasons:

The opening of this section of the Boulevard would involve the payment of a large amount of damages for land taken for the building of the Boulevard and injury by the change of grade, for which there has been no provision made. A million dollars was borrowed for this Boulevard by the last loan bill, and I have asked that \$500,000 of this amount should be retained for the payment of damages by reason of the change of grade and for land actually taken between Broad street and Second street, and I am quite sure that the entire million would be exhausted in the payment of land damages and the cost of constructing the boulevard in that section, and from estimates that I have been able to get would require even more to entirely complete it between Broad and Second street. This being so, there is no money available for expenses on the boulevard east of Second street, and until your Honorable Bodies have passed an ordinance appropriating money for the taking of land and the continuance of the boulevard, I should not think it would be wise to incur the expense, particularly as we have very far exceeded the Controller's estimate on mandamus payments for the current year, and the prospects are that they will be even larger next year.

For these reasons I return the ordinance without my approval.

Yours very truly,

JOHN WEAVER,

Mayor.

APPENDIX No. 5.

OFFICE OF THE MAYOR.

Philadelphia, June 27, 1904.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—I return herewith without my approval an ordinance entitled “An Ordinance to place on the City plan Marion, Beulah, Franklin, Elder, Victoria, Durfor, Millick, Glenmore, Auburn, Emery and Jackson streets” for the reason that it provides for the opening of Beulah and Franklin streets of the width of only thirty feet; of Elder street of the width of thirty feet, of Durfor street of the width of thirty feet, of Millick street of the width of thirty feet, of Glenmore street of the width of thirty feet, of Auburn street of the width of thirty feet, and of Emery street of the width of only twenty feet.

I think the time has come in the development of our City when we must prevent the opening of streets of the width of thirty feet. There is no doubt in my mind that the opening of thirty feet streets to-day is the building of the slums of to-morrow, and instead of being in the line of progression of the City's development, really retards it, and when the opening of such narrow streets is advocated, it is probably advocated largely for the reason that it enables a real estate speculator to get a few more dollars for his lot of ground, and is absolutely without regard to the comfort of the people who will eventually occupy the houses built on such streets. It seems to me forty feet is a narrow enough street to give the houses the necessary light and air that they ought to have, and it would be a wise thing to pass an ordinance forever preventing the placing upon the City plan of any other streets of a less width than say forty feet.

I was induced several months ago to sign an ordinance for the opening of a street of the width of thirty feet by the argument that other streets had been permitted to be opened in the immediate vicinity of the same width. I

think I made a mistake in doing so, for it was no sooner signed than other ordinances were introduced to place such narrow streets on the City plan in different sections of the City, some of which were passed by your Honorable Bodies, but were recalled from me.

I cannot urge too strongly the wisdom of not permitting any more narrow streets to be put on our City plan in any part of the City, but to have them wide enough so that the poorer classes of our citizens who will eventually occupy the houses built thereon shall have as much comfort as it is possible for the City to provide.

Yours very truly,

JOHN WEAVER,

Mayor.

APPENDIX No. 6.

OFFICE OF THE MAYOR.

Philadelphia, August 11, 1904.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—I have this day signed an ordinance entitled "An Ordinance to authorize the construction of certain bridges and the work appurtenant thereto, to revise the lines and grades of Passyunk avenue, from Thirty-first street to the Schuylkill river, and of Graver's lane, from Twenty-third to Anderson street, providing for carrying into effect such authority and authorizing the Mayor to enter security for damages to private property," with the exception of the item appropriating five hundred thousand dollars (\$500,000) to continue the construction of a bridge on the line of Passyunk avenue. This will leave \$500,000 to be yet appropriated for the construction of the bridges and work appurtenant thereto. I withhold my approval of this item because there are many other bridges that are of far more importance than this bridge, in addition to which I am informed that this \$500,000 would not

finish the bridge; that it would require another appropriation or another loan to finish it, and that the damages caused by the change of grade and putting in the approaches to the bridge would be enormous, and the only material benefit I can see that the bridge would be at the present time would be to increase the value of land in the immediate vicinity. I think the public necessities require the following bridges to be built: Allen's lane, over Wissahickon creek; Wyoming avenue, over Frankford creek; a new west bridge to the Spring Garden street bridge; Front street, over the Connecting Railway; Large street, under the Frankford Branch of the Philadelphia and Reading; Sedgley avenue, over the Richmond Branch of the Philadelphia and Reading; Montgomery avenue, over the Connecting Railroad; Cresson street, over Midvale avenue; Willow Grove avenue, over Germantown avenue, and Bellfield avenue, under the Tabor Branch of the Philadelphia and Reading. These alone would cost about the \$500,000, which I have disapproved of in the above ordinance.

The rest of the items in the bill are approved.

Yours very truly,

JOHN WEAVER,

Mayor.

APPENDIX No. 7.

Philadelphia, September 29, 1904.

HON. ALEXANDER M. DEHAVEN,

Chairman of Finance Committee, Philadelphia.

DEAR SIR:—Permit me to call your attention to the fact that it will be necessary to make a transfer of \$328,599.91 to Item 14 of the appropriation to the Department of the City Treasurer, for the year 1904. This is for the payment of the Sinking Fund and the interest on loans issued during the current year, and must be available prior to December 26, 1904.

The Item stands as follows:

Item 14, appropriation	\$400,000.00
Transfers as per notification to this Department	298,545.03

Balance to Item 14.....	\$101,454.97
-------------------------	--------------

\$6,000,000 loan, 6 months' interest on \$5,000,	87.50
\$16,000,000 loan, Sinking Fund appropriation	429,967.38

Total amount needed	\$430,054.88
---------------------------	--------------

Balance in Item 14 after transfers.....	101,454.97
---	------------

Amount needed by transfers to Item 14.....	\$328,599.91
--	--------------

On January 22, 1904, a resolution was approved merging into the general fund moneys held in the City Treasury for payment of State tax on loan amounting to \$175,000. The Law Department has notified this Department that they are prepared to make settlement with the Commonwealth. It will therefore be necessary for your Honorable Body to replace in Item 4 the \$175,000 taken from it as per above resolution. I also call your attention to Item 16, appropriation to this Department. This is for the City's share for care of indigent insane at Norristown. The bill received from the Commonwealth is for \$6,463.30, and the appropriation is only \$5,500. This will necessitate a transfer to Item 16 of \$963.30; and I request the passage of an ordinance to that effect.

Yours truly,

HENRY R. SHOCH,

City Treasurer, County of Philadelphia.

APPENDIX No. 31.

OFFICE OF THE MAYOR.

Philadelphia, October 28, 1904.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—I return herewith an ordinance to vacate Gray's lane, from Catharine street to Sixtieth street, without my approval for the following reasons: That the ordinance provides that before the street shall be vacated the owners of property affected shall file an agreement satisfactory to the City Solicitor not to claim any damages by reason of the said vacation.

It seems to me that the ordinance should provide for the giving of a bond of indemnity to indemnify the City against all damages which shall be occasioned by reason of the vacation. The vacation of this lane is of great benefit to the property owners on either side of the same, the bed of the lane thus vacated becomes the individual property of the owners of the adjoining premises, and it would be a very small thing to ask them to give a bond of indemnity to indemnify the City against all damages occasioned by the vacation. It is very often difficult to determine what properties are affected, and of course, under the form of the ordinance as passed by your Honorable Bodies it is within the power of any individual owner to frustrate the purpose of the ordinance by claiming damages and refusing to become a party to the agreement. All this uncertainty could be avoided by having the property owners give a bond in sufficient amount to indemnify the City against all damages by reason of the vacation.

I can see no objection to the vacation of the lane if this is done.

Respectfully,

JOHN WEAVER,

Mayor.

APPENDIX No. 32.

OFFICE OF THE MAYOR.

Philadelphia, November 1, 1904.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—I have the honor to transmit herewith a communication from the Commercial Museums of Philadelphia in regard to their requirements for next year. It appears that this communication came too late for the Controller to include it in his estimate, which was made up about the 27th or 28th of July. I therefore sent it to you, as it is for your consideration.

Respectfully,

JOHN WEAVER,

Mayor.

THE PHILADELPHIA MUSEUMS.

Philadelphia, July 30, 1904.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

I submit on behalf and by authority of the Board of Trustees of the Philadelphia Museums the following estimate of funds needed for the maintenance and extension of the Museums, for insurance and supplies, repairs to buildings and improvement of grounds, for the year 1905.

Our appropriation from Councils for the current year was as follows:

For maintenance and extension of Museums, including care of West Phila. buildings and grounds	\$40,000
For repairs	7,500
For insurance	10,000
For supplies (to the Department of Supplies) ..	11,000
	<hr/>
	\$68,500

For the year 1905 the Trustees respectfully request an appropriation as follows:

For Maintenance	\$50,000
For Insurance (to the Sinking Fund Commissioners)	10,000
For supplies (to the Department of Supplies):	
Coal	\$5,000
Postage	500
Stationery, etc.	1,000
Cleaners' supplies	500
Lumber, glass hardware, etc., for installation of exhibits, and building materials for incidental repairs.....	10,000
Trees, shrubs, and plants for park to be laid out on site of Auditorium and other parts of Museum grounds.	3,000
	<hr/> 20,000
For packing, crating, shipping and transportation of exhibits presented to the Museum at the St. Louis Exposition.....	20,000
	<hr/> \$100,000

In addition the Trustees of the Museums desire to call attention to the following list of repairs and improvements which are urgently needed in order to equip the grounds and buildings at West Philadelphia in a suitable manner for use as a public museum. These items stand as nearly as possible in the order of their importance. The Trustees feel that every item on the list constituted a necessary and proper improvement to City property, but as the total is large the items have been arranged as nearly as possible in the order of their importance, so that such funds as may be available for the purpose may be apportioned in that order.

Terra cotta exterior around entire North Pavilion and all of Central Pavilion not adjoining Main Exhibition Hall, including removal of present stucco covering, carrying out architectural details, pillars, pediments, pilasters, cornices, window openings, etc., and plain facings over remainder of wall and course of granite at ground level.....	\$100,000
Steam heating plant, South Pavilion.....	10,000
Cement floor, South Pavilion.....	3,000
Cement floor, Main Exhibition Hall.....	10,000

Grading and parking grounds	5,000
Renewal and reconstruction of fences around entire West Phila. property.....	2,000
Stone retaining wall along eastern side of property abutting on Pennsylvania Rail- road	9,000
	<hr/>
	\$139,000

The increase in the item for maintenance is asked for in order to admit of the employment of additional guards and care takers in West Philadelphia, to begin the classification and installation of collections expected from the St. Louis Exposition, and the purchase of books for a commercial library.

The Central Pavilion of the Museums, at Thirty-fourth street and Viutage avenue, is fully installed and was opened to the public in June. Improvements are now under way in the North Pavilion, which will enable us to install and open that building during the coming winter. The Auditorium has been removed, and we hope to improve the site as a public park and botanical garden. The location is a most desirable one, particularly with reference to the southwestern section of the City.

The increase in the item for supplies included show-case material for installing new collections and trees and shrubbery for the improvement of the Auditorium site as a public park.

The additional item of \$20,000 for expenses of bringing exhibits from St. Louis is especially desired because of the large number of valuable collections already donated or promised to the Philadelphia Museums by the foreign commissioners at the Exposition. The Philippine and Siamese exhibits can be brought to Philadelphia practically intact, and from a large number of the other foreign exhibits the indications are that the City of Philadelphia can obtain whatever it desires.

Respectfully submitted,

For the Board,

WILSON H. BROWN.

APPENDIX No. 38.

COMMISSIONERS OF THE SINKING FUNDS OF THE CITY OF
PHILADELPHIA.*Philadelphia, November 30, 1904.*

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—In the matter of the sale of the 45,000 shares of the Philadelphia & Erie Railroad stock, the Commissioners of the Sinking Funds of the City of Philadelphia have the honor to advise you that a copy of the following circular was sent November 2, 1904, to the stock brokers in the City of Philadelphia, and to the leading brokers in the cities of Boston, New York and Chicago:

COMMISSIONERS OF THE SINKING FUNDS OF THE CITY OF
PHILADELPHIA.

JOHN WEAVER,
JOHN M. WALTON,
LOUIS WAGNER,
Commissioners.

WILLIAM H. WINTER,
Secretary,
146 City Hall.

Sealed Proposals will be received by the Sinking Fund Commissioners of the City of Philadelphia until 12 o'clock noon, the 15th day of November, 1904, for the sale of forty-five thousand (45,000) shares of the Philadelphia & Erie Railroad stock, authorized by a resolution of City Councils, approved October 28, 1904.

No bid will be considered unless accompanied by a certified check, or certificate of deposit drawn to the order of

the Sinking Fund Commissioners of the City of Philadelphia for the sum of twenty-five thousand (25,000) dollars.

Checks or certificates accompanying bids not accepted will be returned to bidders within forty-eight (48) hours after the opening of bids, and deposits of successful bidders will be applied in partial payment of the amount of stock awarded them. It is distinctly announced, however, that no allowance will be made for interest on deposit from the time of opening of the bids until time of settlement. Should there be more than one proposal at the same price a pro rata award may be made.

Settlement in full for the stock awarded must be made with the City Treasurer, on or before the 1st day of December, 1904, at 12 o'clock noon.

The Commissioners reserve to themselves the right to reject any or all proposals, or to award only a portion of the stock for which bids were received as they may deem for the best interest of the City of Philadelphia.

Respectfully yours,

JOHN WEAVER,
JOHN M. WALTON,
LOUIS WAGNER,

Commissioners of the Sinking Funds.

Bids for "all or none" of the stock were received from Fidelity Trust Co. and the Girard Trust Co. jointly, for \$57.50 per share, \$2,587,500; Messrs. Fox & Co. \$57.50 per share, \$2,587,500; Messrs Drexel & Co., \$58.63, \$2,638,350.

At a meeting of the Commissioners held on the 17th instant, the bid of Drexel & Co. was accepted, and their check for \$25,000 credited on account of the purchase money.

On this date, 30th instant, settlement has been made in full by Drexel & Co. for the balance due on account of their purchase, amounting to \$2,613,350, making a total receipt of \$2,638,350, which has been deposited to the credit of the Commissioners of the Sinking Funds, the

certificates of stock being delivered to the purchasers at the same time.

The Commissioners of the Sinking Funds beg further to advise you that the annual amounts appropriated to the Sinking Fund for the loans for which funds have been established will be ample to meet the said loans as they mature and in addition would advise that no further appropriation need be made to meet the last of the loans bearing six per cent. interest, which matures on July 1, 1905, there being sufficient to its credit to pay this loan on that date.

In addition to the loans secured by Sinking Funds the City of Philadelphia has still outstanding \$18,295,000 in what is generally known as "Serial" loans, for which no Sinking Funds have been established, but which commence to mature at the expiration of ten years after the date of the loan and for twenty years thereafter are paid as each series matures in annual instalments by direct appropriation made to the City Treasurer.

In view of the fact that the moneys received from the sale of the Philadelphia and Erie Railroad stock do not belong to any particular Sinking Fund, but are held for the general security of the loans of the City of Philadelphia, the Commissioners of the Sinking Funds have the honor to suggest that they are prepared to pay at maturity the "Serial" loans falling due on December 31 next, amounting to \$966,000, as well as the "Serial" loans maturing during the year 1905 for the same amount, if such payments be agreeable to your Honorable Bodies.

In order to present for the information of the citizens of Philadelphia, on authentic and intelligent history by which the City came into possession of an investment of 45,000 shares of the Philadelphia & Erie Railroad Co.'s stock it is important that the Act of Assembly be cited which gave to municipalities the authority to accelerate the progress of this railway improvement by a substantial subscription to its capital stock.

On the 10th day of February, 1852, before consolidation, an Act was approved which made it competent for the corporate or constituted authorities of any municipal or other corporation in the Commonwealth to subscribe for

shares in the capital stock of the Sunbury and Erie Railroad Co., to borrow money to pay therefor, and to make provision for the payment of the principal and interest of the money so borrowed: the certificates of loan or bonds to bear interest at the rate of six per centum per annum.

By an ordinance in accordance therewith approved February 3, 1853, authority was given on the part of the City to subscribe to the capital stock of the Sunbury and Erie Railroad Co.

On January 7, 1854, a supplement to the foregoing ordinance gave to the Mayor authority to subscribe for ten thousand shares of the above stock whenever a like number of shares, exclusive of subscriptions already made, should be taken by responsible parties, and for an additional ten thousand shares when a similar number should be subscribed by others.

Also vesting authority in the Mayor to negotiate a loan not to exceed \$2,000,000 at a rate of six per cent. per annum; said loan to be redeemable January 1, 1892.

The officers of the company having certified that the conditions of the ordinance had been complied with; the twenty thousand shares were accordingly subscribed for, amounting to \$2,000,000. This amount was paid for by instalments; the last payment being on January 1, 1857. The City's entire holdings at this time was 22,500 shares, at a par value of \$100 per share, the additional 2,500 shares being those subscribed for by the District of Richmond, which became a part of the City by the Act of consolidation.

It was but a short time subsequent to this that the title of the railroad company was changed from Sunbury and Erie to Philadelphia and Erie, and the par value of the stock reduced from \$100 to \$50 per share, with a corresponding increase in the number of shares, thus making the City's holdings 45,000, at a par value of \$2,250,000 instead of as formerly, 22,500 shares.

No dividend was received on this stock for a period of forty-four years, from the payment of the last instalment of \$250,000, on January 1, 1857, and only \$270,000 has been received to date, although there was paid in interest

by the City on the loan for over thirty years over \$4,050,000, or more than 180 per cent. The fluctuations in the prices of the stock at the Stock Board have been varied; in one or two instances only did it reach \$30, the average being \$26, and in 1885 it was quoted at \$13, and in 1897 at \$15.

These figures show that the City's total investment has been at a loss of over three and a half millions of dollars, a condition which the Sinking Fund Commission deemed unwise to further continue.

Very respectfully yours,

JOHN M. WALTON,

LOUIS WAGNER,

Commissioners of the Sinking Funds.

—

OFFICE OF THE MAYOR.

Philadelphia, November 29, 1904.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—At the time of the opening of the bids I was in the City of St. Louis. My colleagues, however, at once informed me of the bids and I ascertained the then market price of several small lots that had been sold. I believed at that time that it was not wise to sell at less than what these small lots had been sold for, but my colleagues, General Louis Wagner and Captain John M. Walton, thought otherwise and their long experience in the financial world and in the affairs of the City, and their well-known desire to serve the City to the very best of their ability has induced me to defer to their judgment. It certainly would have been disastrous to the market to have thrown 45,000 shares of this stock into it at one time, and I am not sure that the result would have not been the same had the effort been made to sell the 45,000 shares in small lots, the public knowing that the whole 45,000 were going:

Inasmuch as the City has carried this stock for over fifty years and in all that time has only received six dividends and during that time has narrowly escaped selling this stock for less than one-half of the present purchase price, it does look as though we were not doing very badly.

I entirely agree with my fellow members of the Commission as to the disposition of this money for paying off loans.

Yours very truly,

JOHN WEAVER,

Mayor of Philadelphia.

BUREAU OF SURVEYS.

Philadelphia, December 12, 1904.

MR. WILLIAM H. FELTON,
Committee Clerk, Common Council.

DEAR SIR:—In reply to your communication of December 10, 1904, asking for an estimate of the cost for opening and improving the Parkway, from Logan Square to Fairmount Park, I would state that

The assessed valuation of property entirely taken is.....	\$902,800 00
The assessed valuation of property largely taken or destroyed is.....	455,100 00
Probable damage to other property affected..	112,100 00
	<hr/>
	\$1,470,000 00

The above is based upon the assessments for the year 1904.

The approximate estimate of the total cost of the work of removing the buildings, and constructing and improving the Parkway, including underground structures, is \$275,000.00.

The cost of a portion of these improvements is assessable against abutting property. It is difficult to accurately estimate the cost of removing buildings.

Plan forwarded.

Yours truly,

GEO. S. WEBSTER,
Chief Engineer.

APPENDIX No. 87.

OFFICE OF THE MAYOR.

Philadelphia, December 31, 1904.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—I return herewith without my approval an ordinance entitled “An Ordinance to vacate Gray’s lane, from Catharine to Sixtieth street, and Marshall road, from Sixtieth street to Gray’s lane,” for the following reason: By plan attached hereto and furnished by the Bureau of Surveys and from the Bureau’s report, I find that Sixtieth street was opened by the City some years ago and damages of \$18,100 paid to one man whose property abuts on both Sixtieth street and Gray’s lane. The opening of Sixtieth street must have been to have taken the place of Gray’s lane, and I should think it would be wise, in similar openings, where a street is opened to take the place of a country road, that the opening of one and the vacation of the other should be at the same time and the City saved harmless from damages. In this case a glance at the plan will show that damages for the opening of Sixtieth street would only have been by the existence of Gray’s lane and the angle at which it traversed this ground. Now the vacation of Gray’s lane will so improve this property and give the property owners the bed of Gray’s lane that it can be developed better and will be much more valuable than it could ever have been without Sixtieth street being opened, but with Gray’s lane open. This being so, should not the property owners pay back to the City in consideration of Gray’s lane being vacated, the damages received from the City for the opening of Sixtieth street?

The more important matter that I desire to call your attention to, however, is (as above referred), that when a street is opened that is apparently for the purpose of closing another street or public road, or will eventually force the closing of it, that your Honorable Bodies, in your wisdom, should take up the two subjects and consider them

together. I believe we should then save to the City hundreds of thousands of dollars.

Respectfully,

JOHN WEAVER,

Mayor.

APPENDIX No. 88.

OFFICE OF THE MAYOR.

Philadelphia, December 31, 1904.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—I return herewith an ordinance entitled "An Ordinance to make an appropriation to the Commissioners of Fairmount Park, for the year 1905," without my approval of Items 25 and 27, which are as follows:

"Item 25. Toward the completion of speedway as authorized by Act of February 28, 1901, and constructing drive from Greenland drive to Speedway, fifty thousand (50,000) dollars.

"Item 27. For tearing down buildings and improvement of grounds in triangle bounded by Twenty-fifth street, Pennsylvania avenue and Spring Garden street, twenty thousand (20,000) dollars."

I have disapproved of these items for the following reasons:

On December 31, 1903, I sent a communication to your Honorable Bodies disapproving a similar item in the appropriation bill for 1904, in which, *inter alia*, I said:

"In regard to the \$50,000 for completing the speedway, etc., I understand that the Park Commissioners have already spent \$160,000 on this short drive, only one mile and a quarter in length, and while, of course, it will be necessary to entirely complete it, I feel that the City needs the money for more urgent purposes at the present time; in addition to which the Park Commissioners hold land

outside of the park limits worth, I should say, several hundred thousand dollars, which has been entirely unproductive for years, is not now used, and never will be for park purposes, and a request from a committee of Councils during the past two or three months to be permitted to use a part of this land for a school site was met by the Park Commission with refusal on the ground that they, as Commissioners of Fairmount Park, had no right to part with any property and not even to permit the City of Philadelphia to use it, whose money paid for it and in whose name it still remains, unless they, the Park Commission, received a full equivalent therefor, and they do not appear to recognize the hundreds of thousands of dollars annually appropriated for improvements or the hundreds of thousands of dollars that have been paid by mandamuses for land taken to enlarge the park to be such an equivalent.

"It therefore occurs to me that if this is the law, some way must be found for realizing upon this unproductive asset that is not part of the park and yet held by the Park Commission, so that its proceeds may be used for the permanent improvement in the park, and thus permit the moneys that would otherwise be appropriated for such permanent improvement to be used for the acquisition of school sites and other things in the different departments of the City government."

The situation thus outlined has not changed except that within the past few weeks the Park Commission has taken some action looking towards selling this outlying property so that within a short time they will probably have funds in hand (hundreds of thousands of dollars probably) out of which the speedway can be completed and we require this money in other parts of the City government.

As to Item 27—this triangle contains a number of buildings owned by the City and now in charge of the Bureau of City Property, and which it is proposed to tear down and their site will provide the park end of the new parkway to be built, and we have believed that this would be done out of the \$2,000,000 loan now available for the parkway. In addition to which it has been stated that a number of contractors would be willing to tear down these

buildings without expense for the material in them and perhaps pay a sum in addition for the privilege of getting this material, so that there ought not to be any expense to the City for the razing of these buildings.

I approve the balance of the bill.

Respectfully,

JOHN WEAVER,

Mayor.

APPENDIX No. 104.

Philadelphia, January 5, 1905.

To the Presidents and Members of the Select and Common Councils of the City of Philadelphia.

GENTLEMEN:—We, your Committee on Surveys, to whom was referred the bill entitled “An Ordinance to revise the grades of Melvale street, from Clearfield to William street, and Tilton street, from Madison to Westmoreland street,” beg leave to report that the grades of these two streets can be revised without damage to the abutting properties and save the City several thousand dollars for damages to grade from physical conditions. We, therefore, report the ordinance with a favorable recommendation.

Frank H. Massey (*Ch’n*), Chas. H. Johnson, Frank Weideman, George W. Conrad, Basil H. Brown, John Allsback, G. W. Young, Geo. B. Edwards, Samuel K. Stinger, Samuel Crothers, Wm. Boal, Hubert J. Horan, R. F. Schofield, W. F. Short.

Public Works (Board of Surveyors) be authorized to revise the grades of Melvale street, from Clearfield to William street, and the portions of the cross streets affected thereby; also the grades of Tilton street, from Madison to Westmoreland street.

APPENDIX No. 105.

Philadelphia, January 5, 1905.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—We, your Committee on Surveys, to whom was referred the bill entitled “An Ordinance to revise the lines and grades of Old York road, between Wingohocking and Chew streets, and between Oak lane and Cheltenham avenue,” beg leave to report that Old York road between the points mentioned is legally opened to the width of sixty feet, it is also on the confirmed City plan of this width. The object of this revision is to place Old York road on the City plan of the width of seventy feet. Under authority of an ordinance of Councils the portion of the road between Chew street and Oak lane (a distance of ten squares and not included in the present ordinance) is being placed on the City plan seventy feet wide, and should the present ordinance be approved the road would have a continuous width of seventy feet practically from the Torresdale Boulevard to City line, a distance of about three miles. There are no modern improvements on the line of the road which would be seriously injured by the increased width, and projected improvements would accommodate themselves to the revised lines thereby opening the road to the new width without cost to the City. The present sixty feet wide road cannot have a cartway of greater width than thirty-six feet, fifteen feet of which is occupied by a double line trolley track. If the road is made seventy feet wide, a cartway of forty-four feet in width can be obtained. The great increase of both light and heavy traffic on this portion of York road, combined with the Willow Grove trolley service, makes it imperative that when the road is perma-

nently curbed and paved it should be of such a width as to insure the greatest safety and convenience to the public. We, therefore, report the ordinance with a favorable recommendation.

Frank H. Massey (*Ch'n*), Chas. H. Johnson, Frank Weideman, George W. Conrad, Basil H. Brown, John Allsback, G. W. Young, Geo. B. Edwards, Samuel K. Stinger, Samuel Crothers, Wm. Boal, Hubert J. Horan, R. F. Schofield, W. F. Short.

AN ORDINANCE

To revise the lines and grades of Old York road, between Wingohocking and Chew streets, and between Oak lane and Cheltenham avenue.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That the Department of Public Works (Board of Surveyors) be authorized to revise the lines and grades of Old York road, between Wingohocking and Chew streets, and between Oak lane and Cheltenham avenue.

APPENDIX No. 106.

Philadelphia, January 5, 1905.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—We, your Committee on Surveys, to whom was referred the bill entitled “An Ordinance to revise the lines and grades of that portion of Plan No. 247, bounded by Fifty-sixth street, Botanic avenue, Sixty-third street and Gibson avenue,” beg leave to report that by ordinance of Councils approved September 21, 1892, authority was given to revise the lines and grades upon Plan No. 247, which embraced the territory between Fifty-sixth street and Sixty-third street, and Woodland avenue and Botanic avenue; this plan was confirmed by the Board of Surveyors August 3, 1896. Prior to this confirmation or

upon December 28, 1895, an ordinance was approved authorizing a revision of the lines and grades of certain portions of the First, Twenty-sixth, Thirty-sixth and Twenty-seventh Wards, for the purpose of establishing grades to such a line above high water as to provide for natural drainage. The authority covered a portion of the above plan No. 247, between Gibson avenue and Botanic avenue, and between Fifty-sixth street and Sixty-third street. By the confirmation of Plan No. 247 after the ordinance of December 28, 1895, the authority given in this ordinance lapsed, and as it is necessary in order to carry out the provisions of the ordinance of December 28, 1895, to revise the said portion of Plan No. 247, and the purpose of this proposed ordinance is to revive the authority of the Ordinance of December 28, 1895. The property is undeveloped and will entail no additional expense upon the City. We, therefore, report the ordinance with a favorable recommendation.

Frank H. Massey (*Ch'n*), Chas. H. Johnson, Frank Weideman, George W. Conrad, Basil H. Brown, John Allsback, G. W. Young, Geo. B. Edwards, Samuel K. Stinger, Samuel Crothers, Wm. Boal, Hubert J. Horan, R. F. Schofield, W. F. Short.

Surplus for the year.....	\$634,875 74

With the closing of the books of this Department for the year 1904 it affords me pleasure to report a surplus exceeding the amount shown on August 1st last. The estimated figures at that time were \$220,019.61. These have been largely increased by the actual results on December 31st, which exhibit a total of \$634,875.74.

This amount, which is to be attributed entirely to the large collections from current and delinquent taxes over the revenues from that source in former years, together with the extraordinary amounts as shown under the head of Miscellaneous and Departmental receipts as well as by the fewer insertions of provisos in ordinances against balance of appropriations not merging, is, of course, placed to the credit of the Finance Committee and is available for appropriation during the current year in accordance with a decision of the Law Department, December 27th, 1880.

In view, therefore, of the large excess here shown at the disposal of your honorable bodies for further appropriation, together with the fact of provisions having been made by the Sinking Fund Commissioners for the redemption of the serial loans falling due in 1905, which increased the amount available for appropriation, it is but proper to add that the necessity heretofore existing for the creation of a temporary loan is apparently obviated during the current year.

Receipts.

The total estimated revenues from the various sources on August 1st for the year to December 31st, 1904, were \$28,333,893.26.

The amount collected was \$45,992,209.61, which includes the recent loans negotiated of \$16,005,000. The amounts received from the State authorities of Personal Property Tax and School moneys show a further payment from the surplus school moneys ascertained in the year 1900 of \$40,407.90; this, together with the balance in full of the allotment due this City for 1903, which amounts to \$442,150.18, and \$500,000 on account of that due in 1904, makes a total received of \$982,557.68.

Of the Personal Property Tax for 1904, \$1,200,000 has been remitted, leaving a balance due this City of \$54,974.27.

The City will receive of the Personal Property Tax collections, in addition to the amount shown above, the commission of one per cent., amounting to \$16,902.01, deducted for the collection of the tax by the City Treasurer, in accordance with the decision of the Court in the case of the City of Philadelphia *vs.* McMichael, appellant, and City of Philadelphia *vs.* Moore, appellant. 208 Pa. 297 and 327.

In connection with the collection of the Personal Property Tax by the City, I am pleased to add that of the total assessment of \$1,690,201.03 reported to the State at the beginning of the year there remains delinquent, due the City on December 31st, but \$9,575.85. On November 1st there was due \$47,040.20. This Department at once mailed notices to all delinquents, and, assuming therefore that of these the sum of \$40,000 would be needed before December 31st to meet the assessment reported by the State, and which must be remitted before the City would

be entitled to its proportion of three-fourths of the whole, an appropriation of that amount was asked for. In response to those notices the collections have been unusually large, resulting in the merging upon the books of this Department and the retention in the City Treasury of \$30,424.15 of the above appropriation.

The total amount received for current taxes of 1904 was \$16,351,105.94. The delinquent City taxes collected amounted to \$1,541,889.95.

The tax levy for 1904 was computed at \$16,872,055.67. This was based upon an estimated assessed valuation of \$1,162,074,023 at a rate of \$1.50 per one hundred, and was the lowest tax rate adopted in thirty-six years. Of the amount collected there remained on December 31st, allowing for discounts of \$58,012.32 and penalties of \$57,351.93, about 3½ per cent. of the tax levy uncollected. A smaller sum outstanding than has hitherto been shown.

Outstanding Warrants.

The outstanding warrants shown below are in accordance with the ordinance approved June 21st, 1882, which limits the liability on the books of this Department to six years only, the accumulation for 1904 occurring by reason

of the large number of bills held back until the closing days of the year.

The total number of warrants countersigned during the year 1904 was 88,846, an increase of 4,754 over those of 1903.

Philadelphia & Erie R. R. Co.'s Stock.

The elimination from the list of assets, shown in Table F, of the various annual reports of this Department of the 45,000 shares of the Philadelphia & Erie R. R. Co.'s stock which, on January 1st, 1904, had a market value of \$49 per share of a total value of \$2,205,000, was, by a resolution of your honorable bodies, disposed of on November 17th, 1904, to Messrs. Drexel & Co. for \$58.63 per share, yielding the sum of \$2,638,350, the amount being then placed to the credit of the Sinking Fund Commission.

This stock, when subscribed for by the City in 1854, was then that of the Sunbury & Erie R. R. Co., but by a change of title a few years later became the Philadelphia & Erie R. R. Co. The City's subscription to it, as well as to a large number of shares of the Pennsylvania R. R. Co. and the North Penn. R. R. Co., was hailed at that time as an investment toward the encouragement, promotion and advancement of the City's business channels by accelerat-

ing the freight and passenger traffic then needing and awaiting development.

It was in nowise considered, when the authorization was given to subscribe to the capital stock of these roads, that the City's holdings were to be a permanent investment, but on the contrary to be disposed of from time to time, when in the wisdom of the Sinking Fund Commission and Councils the time should be opportune, a fact clearly demonstrated by a glance at the minutes of the proceedings of the meetings of members of both bodies when considering the advisability of a sale of these stocks.

Acting upon these suggestions the Sinking Fund Commission, of which the head of this Department is a member, deemed it unwise to carry longer the Philadelphia & Erie R. R. stock, the last of the City's subscriptions in this direction, and on November 30th passed a resolution recommending the disposition of a portion of the proceeds of this sale in the following manner:

That, "In view of the fact that the moneys received from the sale of the Philadelphia and Erie Railroad stock do not belong to any particular sinking fund but are held for the general security of the loans of the City of Philadelphia, the Commissioners of the Sinking Funds have the honor to suggest that they are prepared to pay at maturity the 'Serial' loans falling due on December 31st next, amounting to \$966,000, as well as the 'Serial' loans maturing during the year 1905 for the same amount, if such payments be agreeable to your honorable bodies."

In conformity therewith I beg to report that \$966,000, the total of certain Serial loans maturing December 31st, 1904, have been paid from this fund, and there has been set aside a like amount for payment of the similar loans maturing November 1st and December 31st next.

The Funded Debt.

The gross funded debt on January 1st, 1904, was \$56,337,245.22. The increases during the year were the negotiation of the \$16,000,000 loan of May 18th, 1904, an additional \$5,000 of the Subway Loan of 1894 and \$10,700 of unclaimed loans returned by the Farmers' and Mechanics' National Bank, in all \$16,015,700. The total redemptions of matured loans amounted to \$2,501,125, leaving a funded debt on January 1st, 1905, of \$69,851,820.22, an increase in the gross debt for the year of \$13,514,575.

The net debt shows an increase over that of 1904 of \$14,132,550.

Among the maturing loans paid on December 31st last, as shown in Table C of this report, will be found the last series of \$400,000 of the \$10,000,000 loan of 1874, created for the extinction of the large amount of interest-bearing warrants and other indebtedness of the City at that time.

Attention is called to the prompt payment of the interest account on the Subway Loan of 1894 by the Philadelphia and Reading Railroad Company, as well as their proportion of the first series of \$300,000 of same loan, one-half of which was received from them on December 31st last.

Also the payment by the same company of the bond given by it in the change of grade on Columbia avenue, from Eighth to Tenth streets; Broad street, from Cumberland to Somerset streets; Lehigh avenue, from Thirteenth to Fifteenth streets, and vacation of Melon street, from Ninth to Tenth streets, as per the awards of the jury, with interest, amounting to \$560,648.41.

*Real Estate Owned by the City of Philadelphia, together
with a List of Properties, Churches, Charitable Insti-
tutions, Libraries, etc., Exempt from Taxation.*

Table L of this report contains a list of the real estate owned by the City of Philadelphia as appraised by the Board of Revision of Taxes to December 31st, 1904, showing a valuation of \$78,769,019, an increase over the amount reported December 31st, 1903, of \$11,981,650.

The frequent inquiries in reference to the property exempt from taxation in the City has suggested the advisability of adding an additional Table (M), which gives by Wards those exempt. The amount embraced in the church property shows a total of \$27,320,450, the miscellaneous properties, \$57,938,050, or a grand total, including the City's holdings, of \$164,027,519.

APPENDIX No. 126.

OFFICE OF THE MAYOR.

Philadelphia, February 16, 1905.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—I have signed an ordinance placing upon the City plan about 120 streets of a less width than forty feet. In fact, they run all the way from ten feet to thirty-five feet, and I find thirty-five of these streets of a width of only twenty feet or less.

I have signed this ordinance because every one is built upon, and it would have been manifestly unjust to have compelled the destruction of houses in order to have a wider street, especially as in most cases the lines were given by our surveyor.

I think, however, that this emphasizes the importance of having at once a general ordinance forbidding the opening of streets of a less width than forty feet, so that the Board of Surveyors would not give building lines upon streets of a less width. All our new western cities are profiting by the experience of older cities and are making wide streets, and we ourselves have been paying hundreds of thousands of dollars for the gradual widening of Chestnut street, and we certainly ought to see that we make our new streets wide enough to render it unnecessary to do widening in the future.

Yours very truly,

JOHN WEAVER,

Mayor.

APPENDIX No. 127.

OFFICE OF THE MAYOR.

Philadelphia, February 16, 1905.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—I respectfully call your attention to the building known as "Congress Hall," at the southeast corner

of Sixth and Chestnut streets. This building was erected in 1787, and was occupied by the Congress of the United States from December 6, 1790, until May 14, 1800, when the seat of government was moved to Washington. Washington was inaugurated in the building at the opening of his second term; here his farewell address was delivered, and here John Adams, the second President of the United States, took the oath of office.

You have already determined to restore this building to its original condition, but no appropriation has been made for it. I understand that it can be done for \$25,000. May I ask that you make an appropriation for that purpose in order that this building can be at once restored?

Yours very truly,

JOHN WEAVER,

Mayor.

APPENDIX No. 128.

OFFICE OF THE MAYOR.

Philadelphia, February 16, 1905.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—The Director of Public Works reports to me that the City Ice Boat No. 3 was sunk at the Delaware Breakwater on February 5th last at 6 A. M. by striking the sunken barge "Santiago," there being no lights nor buoys on the wreck to mark its location.

I am glad to inform you that her crew of thirty-one men were saved, being rescued from the floes of floating ice upon which they had taken refuge, by the tugs "Gettysburg," "Teaser," "Boxer," "Sommer N. Smith" and "North America." We immediately made arrangements with D. W. Burbage & Company to save what portable property could be saved on a fifty per cent. basis, and after a careful examination of the wreck and a careful consideration of the conditions, the Superintendent of Ice Boats,

Director of Public Works and I determined that it would be unwise to attempt to raise the wreck, as she was a very old boat, having been built in 1872, and we therefore formally abandoned her to the United States Government. The condition of the river was such that it was necessary for us to get a boat to take the place of this ice boat, as it was found impossible for the two remaining boats to keep the harbor open. We therefore made an arrangement with the Philadelphia and Reading Railway Company, and procured the service of their ocean tug "International," for which we have agreed to pay one hundred (100) dollars per day during her service.

The sinking of this boat has brought before us very forcibly the absolute necessity for having such a fleet of ice breakers as will render it absolutely impossible to have the Delaware river even partially closed to navigation at any time during the severest winter. The three antiquated ice boats that we had before the sinking of No. 3 have really been doing very remarkable work for boats as old as they were, but it is essential that we should have two boats, and they should be ready for the opening of the next winter season, and we have therefore requested the firm of Melville & Macalpine, of which firm Admiral Melville, late of the United States Navy, is the senior member, to prepare plans for a new boat.

For the past two years I have been impressed with the thought that it was not wise economy to have boats exclusively for ice breaking that were in service some times less than two months during the year, and the rest of the time were tied up absolutely useless. In addition to which, I am convinced that while the river is in its present condition from ice, the river front is absolutely without any protection by police and fire boats, as it would be impossible for them to go from one place to another as they could not break the ice and would have great difficulty in getting through it. One of the old police and fire boats, "The Samuel G. King," was partially wrecked last winter, and an examination of her condition has convinced us that it would not pay to rebuild her.

After careful consideration I have come to the conclusion that from an economic and efficient standpoint, it would be

very much better to build another ice boat that had the greatest possible ability as an ice breaker, and also combines the fire fighting features. This will be very little additional expense, and will give us a boat that can be utilized for fire purposes during the nine or ten months in the year that the ice boat is ordinarily tied up. In addition to this, we shall have an ice breaker that can be used as a fire boat during the winter, when it is impossible for our present fire boats to get near a burning building on the water front.

I find in an article in "The Mechanical Engineer," under the head of Ice Breakers the following:

"The new development of the ice-breaking steamer has just been tried with satisfactory results in St. Petersburg. The great expense of an ice breaker is much increased by its comparative uselessness during the months in which it is not performing its special functions. In order to obviate this, the new ice breaker has been adapted for use as a fire-preventing steamer."

There is no doubt in my mind that the City will be very much better off if we can eventually combine our ice boats with the police and fire boats so as to have one fleet of boats that will be useful for all purposes, and be constantly in commission. At present, as stated above, we have a fleet of ice boats that are useful only two or three months in the year, and a fleet of police and fire boats that are useful only during the time that the ice boats are not in commission. The condition of Ice Boat No. 1 is such that it may be put out of commission at any time; it is so old that it is impossible for it to last much longer, and in order to put our harbor in first class condition for next year, we should have two modern boats with the combination of fire features as suggested above, and I would therefore respectfully request your Honorable Bodies to appropriate say sufficient money to build and equip one immediately, and to authorize the department to contract for the two, and arrange for the second one to be paid for out of next year's appropriation.

Yours very truly,

JOHN WEAVER,

Mayor.

APPENDIX No. 129.

RESOLUTION.

Of request to the Mayor to return to Common Council, Common Council bill (Appendix No. 118) entitled "An Ordinance to authorize the purchase of property Nos. 1241, 1243, 1245 North Front street, for bath-house purposes.

Resolved, by the Select and Common Councils of the City of Philadelphia, That the Mayor be, and is hereby requested to return to Common Council, Common Council bill (Appendix No. 118) entitled "An Ordinance to authorize the purchase of property Nos. 1241, 1243, 1245 North Front street for bath house purposes."

APPENDIX No. 130.

OFFICE OF THE MAYOR.

Philadelphia, February 16, 1905.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—In pursuance of your resolution of this date, I have the honor to return herewith Common Council Ordinance No. 118, entitled "An Ordinance to authorize the purchase of property Nos. 1241, 1243 and 1245 North Front street, for bath house purposes."

Respectfully,

JOHN WEAVER,

Mayor.

APPENDIX No. 131.

OFFICE OF THE MAYOR.

Philadelphia, March 2, 1905.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—The work of the City Ice Boats has been so continuous this winter that the five thousand (5,000) dollars appropriated for coal was exhausted over a week ago, and I would suggest that a further appropriation be made of at least five thousand (5,000) dollars to carry us through this winter, and to be prepared for work next winter before the appropriations are made for 1906.

Yours very truly,

JOHN WEAVER,

Mayor.

APPENDIX No. 132.

OFFICE OF THE MAYOR.

Philadelphia, March 2, 1905.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—I return herewith, without my approval, an ordinance entitled "An Ordinance to authorize the paving of Arch, Dauphin, Eleventh, Frazier, Forty-sixth, Forty-seventh, Fifty-eighth, Locust, Larchwood, Lippincott, Pine, Parrish, Robinson, Thompson, Walnut, Newhall, Reinhard, St. Davids and Umbria streets, Baltimore, Greenway and Osage avenues," for the following reasons:

The ordinance provides that a number of streets shall be paved with "vitrified" brick. I have been investigating the subject of paving streets with brick, both in this City and other cities of the country, and I am convinced that there is just as good shale or other paving bricks as vitrified paving bricks; and, I believe if we follow the plan that we

have adopted, in regard to the asphalt paving, of having all kind of paving brick determined by the Department of Public Works, only subject to a test as to quality and durability, that we shall get more competition and a very much better price for paving.

I would therefore suggest that the ordinance herewith returned be amended, by striking out the words "vitrified fire clay" or adding the words after vitrified fire clay "or shale."

Yours very truly,

JOHN WEAVER,

Mayor.

APPENDIX No. 167.

Philadelphia, March 2, 1905.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—We, your Committee on Surveys, to whom was referred the bill entitled "An Ordinance to place upon

the City plan a certain tract of ground as an open public place and park along Pennypack creek, in the Thirty-fifth Ward, for the health and enjoyment of the people, and the preservation of the purity of the water supply of the City; also, to lay out upon the plan the necessary driveways and boundary avenues along said creek," beg leave to report that the length of the creek between Frankford avenue and Pine road is about six and one-half miles, and it flows its entire distance through woodland and farmland, with several mills along its banks. For the greater part of the distance the banks along the creek are precipitous and covered with handsome shade trees, making the entire stretch a beautiful natural park, which it is desirable should be placed upon the City plan and appropriated for public purposes. It is estimated that the said park will contain about one thousand acres. It is also of vital importance to immediately appropriate the ground adjacent to Pennypack creek through the entire length of the city, to preserve the purity of the water supply. This creek, which is nearly as large as the Wissahickon creek, empties into the Delaware river directly at the intake to the Torresdale filters, where it is expected that in a few years approximately three hundred million gallons of water will be pumped daily. To discharge a sewage-laden creek at this point might be a serious detriment to the health of the public. To develop and make the said park accessible it will be necessary to lay out driveways along the said creek. We therefore report the ordinance with a favorable recommendation.

Frank H. Massey (*Ch'n*) Chas. B. Barton, Basil H. Brown, John S. Dutton, G. W. Young, Wm. Boal, Hubert J. Horan, W. N. Stevenson, Alexander Crow, Jr., Thos. S. Wiltbank, Geo. B. Edwards, S. K. Stinger, Frank Weideman.

AN ORDINANCE

To place upon the City plan a certain tract of ground as an open public place and park along Pennypack creek, in the Thirty-fifth Ward, for the health and enjoyment of the people, and the preservation of the purity of

the water supply of the City; also, to lay out upon the plan the necessary driveways and boundary avenues along said creek.

SECTION 1 *The Select and Common Councils of the City of Philadelphia do ordain*, That the Department of Public Works (Board of Surveyors) be authorized and directed to place upon the City plan as a park, all those certain tracts of ground situate along both sides of Pennypack creek, between Frankford avenue and Pine road, of such widths that by passing the boundary lines generally along the crests of the heights, which are on either side of said creek, the purity of the water of the creek may be protected and thus the beauty of the scenery preserved. The lines thus determined and established upon the City plan shall define the limits of the park to be taken by this ordinance. The Department of Public Works (Board of Surveyors) is further authorized to lay out upon the plan the necessary driveways and boundary avenues along said Pennypack Creek.

APPENDIX No. 169.

Philadelphia, March 2, 1905.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—We, your Committee on Surveys, to whom was referred the bill entitled “An Ordinance to revise the grades of Venango street, from the right-of-way of the Philadelphia, Germantown and Norristown Railroad to Twenty-first street,” beg leave to report that the tracks of the Railroad Company at the crossing of Venango street are about three feet above the confirmed grade at said crossing. Venango street is paved to the height of the crossing. The object of the revision is to make the plan grade conform to the existing conditions. We therefore report the ordinance with a favorable recommendation.

Frank H. Massey (*Ch’n*) Chas. B. Barton, Basil H. Brown, John S. Dutton, G. W. Young, Wm. Boal, Hubert J. Horan, W. N. Stevenson, Alexander Crow, Jr., Thos. S. Wiltbank, Geo. B. Edwards, S. K. Stinger, Frank Weideman.

AN ORDINANCE

To revise the grades of Venango street, from the right-of-way of the Philadelphia, Germantown and Norristown Railroad to Twenty-first street.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain,* That the Department of

Public Works (Board of Surveyors) be authorized to revise the grades of Venango street, from the right-of-way of the Philadelphia, Germantown and Norristown Railroad to Twenty-first street: *Provided*, That the owners of property abutting on both sides of Venango street first file an agreement or bond satisfactory to the City Solicitor indemnifying the City against all damages by reason of said revision.

APPENDIX No. 170.

Philadelphia, March 2, 1905.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—We, your Committee on Surveys, to whom was referred the bill entitled “An Ordinance to revise the curb lines on Allegheny avenue, between Glenwood avenue and Sedgley avenue, in the Thirty-third Ward,” beg leave to report that a contract has been executed for the construction of a bridge at this point on Allegheny avenue at its crossing with the Connecting Railway. Owing to the length of span it has been found necessary to construct a row of column supports in the middle of the roadway of Allegheny avenue, thereby reducing its available width. The object of this ordinance is to reduce the width of the curb lines from twenty feet to sixteen feet, thus giving an additional width of eight feet to the roadway by reducing the footways that amount. As this portion of Allegheny avenue is unimproved the only expense to be incurred by the City will be that incident to the re-setting of a small amount of curbing. We therefore report the ordinance with a favorable recommendation.

Frank H. Massey (*Ch'n*), Chas. B. Barton, Basil H. Brown, John S. Dutton, G. W. Young, Wm. Boal, Hubert J. Horan, W. N. Stevenson, Alexander Crow, Jr., Thos. S. Wiltbank, Geo. B. Edwards, S. K. Stinger, Frank Weideman.

AN ORDINANCE

To revise the curb lines on Allegheny avenue between Glenwood avenue and Sedgley avenue, in the Thirty-third Ward.

SECTION 1 *The Select and Common Councils of the City of Philadelphia do ordain*, That the Department of Public Works (Board of Surveyors) be authorized to revise the curb lines on Allegheny avenue, between Glenwood avenue and Sedgley avenue, so as to make the sidewalks sixteen feet wide.

APPENDIX No. 171.

GENTLEMEN:—We, your Committee on Surveys, to whom was referred the bill entitled "An Ordinance to revise the lines and grades of Dauphin street, between Ridge avenue and Thirty-third street, in the Twenty-eighth Ward," beg leave to report that the object of the proposed revision is to obtain a greater width of driveway on Dauphin street by increasing the width to forty-six feet; the property to be taken is on the south side of the street, and is now owned by the City. We, therefore, report the ordinance with a favorable recommendation.

Frank H. Massey (*Ch'n*), Chas. B. Barton, Basil H. Brown, John S. Dutton, G. W. Young, Wm. Boal, Hubert J. Horan, W. N. Stevenson, Alexander Crow, Jr., Thos. S. Wiltbank, Geo. B. Edwards, S. K. Stinger, Frank Weideman.

APPENDIX No. 172.

Philadelphia, March 2, 1905.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—We, your Committee on Surveys, to whom was referred the bill entitled “An Ordinance to revise the lines and grades on City plan No. 294, bounded by Cottman street, Strahle street, Montgomery County line and I street, in the Thirty-fifth Ward,” beg leave to report that since the plan was prepared in 1876 the New York Short Line Railroad has been projected, and the plans to the north and south revised to conform to the new conditions; it is also desired to revise the lines and grades of the streets crossing the Philadelphia, Newtown and New York Railroad so as to abolish the grade crossings and to better conform street lines to the topographical conditions. A portion of this territory has been left to the City under provisions of Will of Robert W. Ryers, deceased, and the street lines should be revised so as not to interfere with the development of proposed Burholme Park. As this work can be done to the best advantage and least cost at this time we report the ordinance with a favorable recommendation.

Frank H. Massey (*Ch’n*), Chas. B. Barton, Basil H. Brown, John S. Dutton, G. W. Young, Wm. Boal, Hubert J. Horan, W. N. Stevenson, Alexander Crow, Jr., Thos. S. Wiltbank, Geo. B. Edwards, S. K. Stinger, Frank Weideman.
